

Océ 7050 Range

Wide-format plain paper copiers

Instant, high-quality copies, where and when you need them

Time- and cost-saving
Make your own wide-format copies in-house and you'll save both time and cost. These can be significant benefits, especially when you have a regular demand for copies. And, of course, without warm-up time, your copies are always available immediately - particularly important when you have tight deadlines to meet.

High-quality, durable copies
With the Océ 7050 you get excellent copies every time, even from old or less-than-perfect drawings. The unique Océ fusing system is completely free of silicon oil, ensuring spotlessly clean copies. Copies are water-resistant and allow easy manual correction, thanks to Océ's direct fusing process.

Place it where you need it
You can place the Océ 7050 right in the middle of your drawing office or any other working area, thanks to its minimal ozone, noise and heat emission levels. As you'd expect from every Océ copier, the 7050 is extremely energy-efficient. And it works perfectly with chlorine-free and recycled paper.

Walk-up-and-copy simplicity
When you need to make a copy, you don't need complexity that gets in your way. That's why the Océ 7050 has been designed to make copying a quick, convenient process. Whether you choose a manual or automatic model, it gives you real walk-up-and-copy simplicity.

The right copier for every situation
The Océ 7050 family has been designed to meet every need for cost-effective wide-format copying within a single, structured range. From the economic 7050/7051 manual models right up to the 7055/7056 with their productivity-enhancing automated functions, you get the right wide-format copying functionality for your own specific needs.

*Océ 7050
Economic solutions for
straightforward, walk-up copying*

*Océ 7051
Valuable functions that save time
and manual handling, such as multi-
copy and edge adjustment*

*Océ 7055
Productive copying with functions
such as automatic 1-roll media feed
(up to 175-metres), multi-copy, test
strip and edge adjustment*

*Océ 7056
Productive copying with 2-roll
automatic media feed for on-line
access to formats from A3 to A0 or a
choice of copy media. Also multi-copy,
test strip and edge adjustment*

Instant, high-quality copies

Where and when you need them

Fast, high-quality copies, made where and when you need them. With no waiting time, and with operation that's easy for everyone. Those are the key benefits of the Océ 7050 line of wide-format plain paper copiers. Add the right combination of time- and labour-saving automated functions, and you have the copier you need for everyday use in the drawing office or central archive. From Océ, the worldwide leader in wide-format copying and printing.
